

790700_STANDARD AND ATEX EX-M SOLENOID VALVE_INOX

Series of spool valves, with static seals and high flow for mounting on NAMUR interface. Function 3/2 can be achieved by applying the special plug supplied standard in the kit. In according to: SIL 3 Capable according to IEC 61508:2010

MATERIALS:

Body: Stainless steel aisi 316L

Heads: Stainless steel aisi 316L

Spool: Hard anodized aluminium

Distancer: Ixef 1022

Seals: HNBR

Spring: Stainless steel

Driver: Stainless steel

Coil: Thermoset resin

Spacer: Nylon (only ATEX model)

In ATEX version the protection is assured by a thermal fuse that, in case of damage, disconnects the coil from power. Solenoid system is conforming to ATEX 2014/34/EU.

CHARACTERISTICS:

Fluid: Compressed filtered air.

Pressure range: 1 ÷ 10bar.

Temperature range:

standard -25°C ÷ +70°C

ATEX -25°C ÷ +50°C

Nominal Ø: 8 mm

Flow: 1.100 Nl/min (6 bar ΔP 1 bar)

Degree of protection:

standard model IP65

ATEX model IP66

Manual override: Bistable position

Air entry: 1/4 GAS

Elettrovalvola MONOSTABILE NAMUR 3/2 - 5/2 solenoide/molla
MONOSTABLE VALVE NAMUR 3/2 – 5/2 SOLENOID/SPRING
